PROFESSIONAL PROFILE

Specialist with extensive experience in production costing, cost analysis, supplier sourcing and quotation comparison, and order coordination. At Walstead Kraków I developed an Excel tool for tracking orders. I support operational decisions with data analysis, reporting and Power BI.

WORK EXPERIENCE

Walstead Kraków Sp. z o.o. | Cost Estimation & Production Preparation Specialist ISM | 02.2023–11.2026

- Production costing in Signa; cost analysis of materials, supplies, services and manufacturing.
- Sourcing and comparing supplier and subcontractor quotations for price, quality and delivery time.
- Updating price lists and cost documentation; preparing operational analyses.
- Monitoring deliveries, deadlines and production stages; coordinating with clients, suppliers and teams.
- Prepress file verification and an original Excel tool for order tracking.

DTP · Prepress · Digital Printing · Graphic Design | 2005–2023

- Graphic design and packaging, digital and offset printing, imposition and file verification.
- Production, team, warehouse and purchasing coordination.

E-GRAPH — self-employment

- Graphic design, estimates, purchasing, customer service, prepress and order coordination.

SKILLS

Business & operations

- Production costing, cost analysis and estimates
- Supplier and subcontractor sourcing and quotation comparison
- Purchasing, price lists, production planning and coordination
- Documentation, quality control and operational logistics

Data analytics

- Excel: formulas, pivot tables and conditional formatting
- Power BI, Power Query, DAX, reporting and dashboards
- Python, SQL, Pandas, NumPy, Matplotlib, Plotly, Dash
- Data cleaning, visualization, trend analysis and scikit-learn

TECHNICAL SKILLS

Software / Cloud

- Git, GitHub, Docker, React, Flask, FastAPI, PostgreSQL

Python / ML / CV / RAG

- Python, PyTorch, TensorFlow/Keras, scikit-learn, XGBoost
- Machine Learning: regression, classification, CNN, transfer learning, evaluation
- Computer Vision: OpenCV, YOLO, MediaPipe, image analysis
- LLM / RAG: chunking, embeddings, FAISS, retrieval, reranking, Bielik, Ollama

Generative AI / Design / Video

- ComfyUI, FLUX, Stable Diffusion / SDXL, ControlNet, LoRA, IP-Adapter
- Inpainting, upscaling, Qwen Image, video and audio generation
- Adobe, CorelDRAW, DaVinci Resolve, DTP and prepress
- DJI Mini 4 Pro aerial photography and video

PROJECTS

01 | Road Accidents in Poland 2004–2023

Police accident data analysis, data preparation, trends and an interactive Python, Pandas, Plotly and Dash dashboard.

View project ↗

02 | California Housing

Housing data analysis, regression, feature engineering, model comparison and evaluation with scikit-learn.

View project ↗

03 | RAV4 RAG Assistant

Toyota RAV4 manual assistant: PDF parsing, chunking, E5 embeddings, FAISS, BGE reranking, Bielik 11B, Ollama and FastAPI.

View project ↗

04 | Drone Image Quality Assessment

Drone photo quality assessment and image selection using deep learning.

View project ↗

05 | Face Emotion Recognition

Facial emotion recognition with ResNet18, transfer learning, training and evaluation using PyTorch and OpenCV.

View project ↗

06 | BLACK LUXURY — BORN FROM FIRE

Original AI commercial: concept, image generation and retouching, animation, music, sound design and editing in ComfyUI and DaVinci Resolve.

EDUCATION & COURSES

- CodeBrainers — Data Science + AI Bootcamp | 12.2024–06.2025 | 260 hours
- Practical Python | 05.2022–07.2022 | 8 weeks, 8 projects
- Cracow University of Technology | Technical Physics and Computer Modelling | 2002–2004 (not completed)
- Secondary School in Muszyna | IT profile | 1996–2000

ADDITIONAL INFORMATION

- UAS pilot qualification: A1/A3; DJI Mini 4 Pro aerial photography and video.
- Languages: Polish — native; English — B1.
- Winner of the “Damy Radę! Otwieramy własny biznes” business plan competition; funding for E-GRAPH.
